

PROJECT QUOTATION

Project Title: Development of Quiz-Based Math Website

Client: Pn. EMILAWATI BINTI OTHMAN

Prepared By: ISAC RUSSELL PAULBERT A/L ROBERT

Date: 21/3/2026

Project Overview

This project involves the design and development of an interactive quiz-based mathematics website. The system will provide an engaging learning experience through structured quizzes and administrative data tracking.

Scope of Work

The project will include the following modules and features:

1. **User Authentication Module**
 - User registration and login functionality
 - Secure user data handling
2. **Quiz Module**
 - Three (3) gameplay levels
 - Each level contains five (5) multiple-choice questions
 - Interactive, fast-paced interface inspired by Kahoot-style quizzes
3. **Solution Display**
 - Ability for users to view correct answers and step-by-step solutions after completing quizzes
4. **Admin Module**
 - Dashboard for managing users and quiz data
 - Collection and visualization of demographic data
 - Basic data analysis for user performance and engagement
5. **System Documentation**
 - Complete documentation including system architecture, user guide, and technical details
6. **Hosting & Database**
 - Provision of web hosting and database services for a duration of **6 months**
 - Basic setup and deployment included when client has their own hosting

Project Duration

Estimated completion time: **2 weeks** from project commencement date.

Project Cost

Total cost for the project: **RM600.00**

Terms & Conditions

- Hosting and database services are valid for 6 months; renewal costs will be borne by the client thereafter.
- Any additional features or revisions outside the agreed scope are open to discussion but may incur additional charges based on complexity.
- Delivery includes source code and documentation.

Approval

By signing below, both parties agree to the terms outlined in this quotation.
